

Surfshark's Black Friday Sale 2025: Save Up to 89% on Premium VPN Plans

Black Friday is here, and if you've been putting off getting a reliable VPN, now's the perfect time to act.

Surfshark is rolling out one of its most generous Black Friday offers yet, slashing prices by up to 89% on its premium plans.

Whether you're concerned about online privacy, want to access geo-restricted content, or simply need a faster, more secure internet connection, this sale gives you all that without breaking the bank.

I've been tracking VPN deals for years, and honestly, Surfshark's Black Friday pricing is hard to beat—especially with those extra months thrown in for free.

Quick Deal Overview

Here's everything you need to know at a glance:

-  **Sale Duration:** 20th October – 1st December 2025 (Black Friday/Cyber Monday)
-  **Maximum Discount:** Up to 89% OFF
-  **Plans Covered:** Surfshark Starter, Surfshark One, Surfshark One+
-  **Starting Price:** Just \$1.69/month (24-month plan)
-  **Bonus:** +3 extra months FREE on all 24-month plans
-  **Grab the Deal:** [Click here to unlock Surfshark's Black Friday offer](#)
-  **Money-Back Guarantee:** 30 days, no questions asked

[Visit The Official Website](#)

This deal covers all three of Surfshark's main plans, so whether you need just the VPN or the full security suite with antivirus and data removal, there's something for everyone.

The pricing is locked in for the first 27 months, meaning you won't see any surprise charges during that period.

About Surfshark

Surfshark is a premium VPN provider trusted by millions worldwide. It's designed for anyone who values online privacy, security, and freedom—whether you're a remote worker, a traveller, a streaming enthusiast, or simply someone who doesn't want their ISP or advertisers tracking every click.

What sets Surfshark apart from the crowd? For starters, it offers **unlimited device connections** on a single account. That means you can protect your phone, laptop, tablet, smart TV, and even your family's devices—all at once. Most VPNs limit you to 5 or 6 devices, but Surfshark doesn't believe in artificial restrictions.

It also boasts a **network of over 3,200 servers in 100 countries**, all upgraded to 10Gbps speeds to ensure smooth browsing, streaming, and downloading. Add to that an **audited no-logs policy**, military-grade encryption, and features like CleanWeb (ad and malware blocker), and you've got a VPN that truly delivers on its promises.

Users love Surfshark for its ease of use, reliable performance, and transparent privacy practices. It's particularly popular amongst people who stream content from different regions, work remotely, or travel frequently and need secure public Wi-Fi access.

Why This Black Friday Sale Is Worth It

Let's talk numbers. Surfshark's regular pricing can go up to several hundred pounds per year, but during this Black Friday sale, you're looking at a fraction of that cost.

Take the **Surfshark Starter plan**, for example. Normally, you'd pay around \$417.15 for 27 months. During the sale, that drops to just **\$45.63**—that's an **89% discount**. Your monthly cost? A mere **\$1.69**.

The **Surfshark One plan** (which includes VPN, Antivirus, Alert, Search, and Alternative ID) usually costs \$484.65. With the Black Friday offer, it's down to **\$53.73** for 27 months, or **\$1.99 per month**. That's an 89% saving on a comprehensive security package.

And if you want the full suite with **Surfshark One+** (which adds Incogni for personal data removal from data brokers), you'd typically pay \$562.95. The sale price? **\$113.13** for 27 months, working out to **\$4.19/month**—an 80% discount.

Here's what makes this year's deal particularly special: not only are the discounts massive, but you're also getting **3 extra months completely free** on top of the 24-month subscription. That's 27 months of protection for the price of 24. Plus, all plans come with a **30-day money-back guarantee**, so if you're not satisfied, you can get a full refund—no awkward questions.

In my experience, VPN deals don't get much better than this. We're talking about premium-tier service at budget-friendly prices, and with the current state of online privacy concerns, it's genuinely one of the smartest investments you can make.

How to Buy Surfshark During the Sale

Getting your hands on this deal is straightforward. Here's how to do it:

1 Visit the Deal Page

Head over to [Surfshark's Black Friday offer page](#) to see all available plans and pricing.

2 Choose Your Plan

Decide which plan suits your needs:

- **Surfshark Starter** if you just need the VPN and Alternative ID
- **Surfshark One** if you want the full security suite (VPN, Antivirus, Alert, Search, Alternative ID)
- **Surfshark One+** if you also want Incogni for data removal

3 Select the 24-Month Subscription

Make sure you're selecting the 24-month plan to unlock the maximum discount and the 3 extra months. The discount is automatically applied—no coupon codes needed.

4 Complete Checkout Securely

Enter your email, choose a payment method (credit card, PayPal, cryptocurrency, etc.), and complete your purchase. You'll receive instant access to your Surfshark account.

5 Download & Connect

Download the Surfshark app on all your devices (iOS, Android, Windows, Mac, Linux, smart TVs, routers—it supports them all), log in, and connect to a server. That's it!

The entire process takes less than 5 minutes, and you're protected immediately.

Plans & Pricing Breakdown

Let's break down what each plan offers and how much you'll actually pay during the Black Friday sale.

Surfshark Starter

Price: \$1.69/month (billed \$45.63 for the first 27 months)

Regular Price: \$417.15

Discount: 89% OFF

What's Included:

- **VPN:** Unlimited device connections, 3,200+ servers in 100 countries, 10Gbps speeds, WireGuard protocol, CleanWeb (ad blocker), NoBorders mode for restricted regions
- **Alternative ID:** Generate alternative online identities to protect your real personal information when signing up for services

This is perfect if you primarily need a fast, reliable VPN with strong privacy features. The inclusion of Alternative ID is a nice bonus for anyone concerned about oversharing personal details online.

Surfshark One

Price: \$1.99/month (billed \$53.73 for the first 27 months)

Regular Price: \$484.65

Discount: 89% OFF

Most Popular Choice

What's Included:

- Everything in Surfshark Starter, plus:
- **Antivirus:** Real-time protection against malware, viruses, and other threats
- **Alert:** Monitors your email addresses and credit cards for data breaches; notifies you immediately if your credentials appear in leaks

- **Search:** Private search engine with no ads, no tracking, and no logs

This is Surfshark's most popular plan for good reason. For just 30p more per month than the Starter plan, you get comprehensive digital security that goes beyond VPN protection. The Alert feature alone is worth it—data breaches happen constantly, and knowing immediately when your information is compromised can prevent serious damage.

Surfshark One+

Price: \$4.19/month (billed \$113.13 for the first 27 months)

Regular Price: \$562.95

Discount: 80% OFF

What's Included:

- Everything in Surfshark One, plus:
- **Incogni:** Automated personal data removal service that contacts data brokers on your behalf to delete your information from their databases

If you've ever searched for yourself online and been disturbed by how much personal information is available, Incogni is the solution. It systematically removes your data from hundreds of data broker sites that collect and sell your personal information. This service alone typically costs around \$10-15/month, so getting it bundled for \$4.19/month is exceptional value.

Extra Perks & Features

Beyond the core plans, Surfshark offers some fantastic add-ons and features that enhance your experience:

Dedicated IP

Want a unique IP address that only you use? Surfshark offers Dedicated IP as an add-on, available in 20 locations. This is brilliant if you:

- Want to avoid constant "I'm not a robot" verification boxes
- Need reliable access to services that block shared VPN IPs
- Run online businesses or access banking services that flag suspicious IP changes

You can add this to any plan through your Surfshark account page after purchase.

Alternative Number

Protect your real phone number with a virtual phone number that helps shield you from scammers and spam. Use it for:

- Signing up for services you don't fully trust
- Online shopping from unfamiliar websites
- Any situation where you don't want to share your real number

You can still receive calls and messages, but your actual number stays private.

3,200+ Servers in 100 Countries

With server locations spanning six continents, you'll always find a fast, reliable connection. Whether you're accessing UK content from abroad, watching US streaming services, or connecting to Asian servers, Surfshark has you covered.

Audited No-Logs Policy

Surfshark has been independently audited by Deloitte to verify its no-logs policy. This means they genuinely don't track, store, or share your browsing activity. Your privacy is yours, and yours alone.

10Gbps Server Speeds

All servers have been upgraded to 10Gbps connections, ensuring minimal speed loss when connected. Most users report experiencing speeds close to their base internet connection.

CleanWeb Feature

Automatically blocks ads, trackers, malware, and phishing attempts. Browse faster, cleaner, and more securely without installing separate ad blockers.

Frequently Asked Questions

When does the Black Friday sale start and end?

The sale runs from 20th October through 1st December 2025, covering both Black Friday and Cyber Monday. After that, Surfshark transitions to its Winter Deal (2nd December – 5th January) with slightly different pricing.

Is this discount valid for renewals?

No, the promotional pricing applies to the first billing cycle only (27 months). After that, the subscription renews at the standard rate. However, you're getting over two years at the discounted price, which is substantial savings.

Do I need a coupon code?

No coupon needed! The discount is automatically applied when you select the 24-month plan during the promotional period. Just [visit the deal page](#) and the sale price will be displayed.

Can I really use it on unlimited devices?

Yes! Unlike most VPNs that limit you to 5-10 devices, Surfshark genuinely offers unlimited simultaneous connections. Protect every device you and your family own under one account.

What if I'm not satisfied?

Surfshark offers a 30-day money-back guarantee on all plans. If you're not happy with the service for any reason, simply request a refund within 30 days of purchase—no complicated process, no questions asked.

Conclusion

Surfshark's Black Friday Sale 2025 is one of the best VPN deals you'll find this year. With up to 89% off, 3 extra months free, and plans starting at just \$1.69/month, there's never been a better time to invest in your online privacy and security.

Whether you choose the basic Starter plan or go all-in with Surfshark One+ for comprehensive protection including data removal, you're getting exceptional value. The 30-day money-back guarantee means there's zero risk in trying it out.

Don't wait until the last minute—Black Friday deals sell out fast. [Grab your Surfshark subscription now](#) and enjoy safe, private, unrestricted internet access for the next two years and beyond.
